GoldenGame at a glance

GoldenGame is a free set of five trading games. Play to earn XP, climb nine ranks and unlock free prizes. Nothing is for sale inside the game: you never need to buy anything to play, earn XP or win.

Game	What you do	One game takes	XP per game	Daily XP cap	Leaderboard score
Gold Rush	Trade a live gold chart through Phase 1, Phase 2 and a funded account	About 3 to 9 min	20 to 250, or 250 + payout ÷ 20	1,000	Best payout (\$)
Candle Call	Call if price will be higher or lower 6 candles later, 10 rounds	About 1 min	Points ÷ 2 (max 200)	400	Best points
Prop Challenge	Grow \$10,000 to \$10,800 in 30 trading days without breaking a rule	About 1 min	150 pass · 40 · 0	450	Fewest days to pass
Golden Quiz	Answer 10 questions on forex, gold, indicators and risk	About 2 min	15 per correct (max 150)	300	Best score /10
Name That Trader	Name the market legend behind 10 clues	About 2 min	15 per correct (max 150)	300	Best score /10

How it fits together

- **Play** any game as a guest, or sign in to earn XP. As a guest you still see how much XP a game would have earned you.
- **XP** raises your rank. Each rank unlocks one prize on the prize ladder (section 8).
- **Bonus XP** comes from joining our Telegram channel and from code words we hide in posts and videos (section 6).
- **Golden Circle** rewards you for inviting friends who become active players (section 7).
- **Leaderboards** rank total XP, each game's best score and top recruiters, this month and all time (section 9).

Fair by design. Every game is decided on our server, not in your browser. Answers and future prices are never sent ahead of time, so nobody can peek, and every score on the leaderboard was earned the same way as yours.

2 · YOUR ACCOUNT

Accounts, XP and ranks

An account is just a username and password. XP only counts when you are signed in, and daily limits reset at midnight Philippine time (GMT+8).

Accounts

- Username: 3 to 20 letters, numbers or underscores. It is shown on the leaderboards, so don't use your real name if you'd rather not.
- Password: at least 8 characters.
- You must be **18 or older** and accept the game terms to sign up. One account per person.
- No email is needed to play. We ask for one only when you claim a prize.
- You stay signed in for 30 days on the same device.
- Guests can play every game, but earn no XP, don't appear on leaderboards and can't claim prizes.

The nine ranks

Your rank is set by your total XP. XP is never spent: claiming a prize does not lower it.

Rank	Total XP	Prize it unlocks
Rookie	0	None (starting rank)
Pip Hunter	1,000	10% off any GoldenBoyFX eBook
Chart Reader	5,000	25% off any GoldenBoyFX eBook
Risk Manager	10,000	One GoldenBoyFX eBook of your choice, free
Trend Rider	20,000	GoldenBoyFX wallpaper pack (phone and desktop)
Gold Miner	30,000	GoldenBoyFX sticker pack
Funded Trader	40,000	All GoldenBoyFX eBooks, free (+ a \$1,500 Gold Rush payout)
Gold Guardian	75,000	Guardian Pro prize edition (+ a \$3,000 Gold Rush payout)
Golden Boy	100,000	PropFirm Solo prize edition (+ a \$5,000 Gold Rush payout)

Daily XP limits

Each game has its own daily cap, so skill counts more than grinding. Bonus XP (Telegram, code words, referrals) does not count toward these caps.

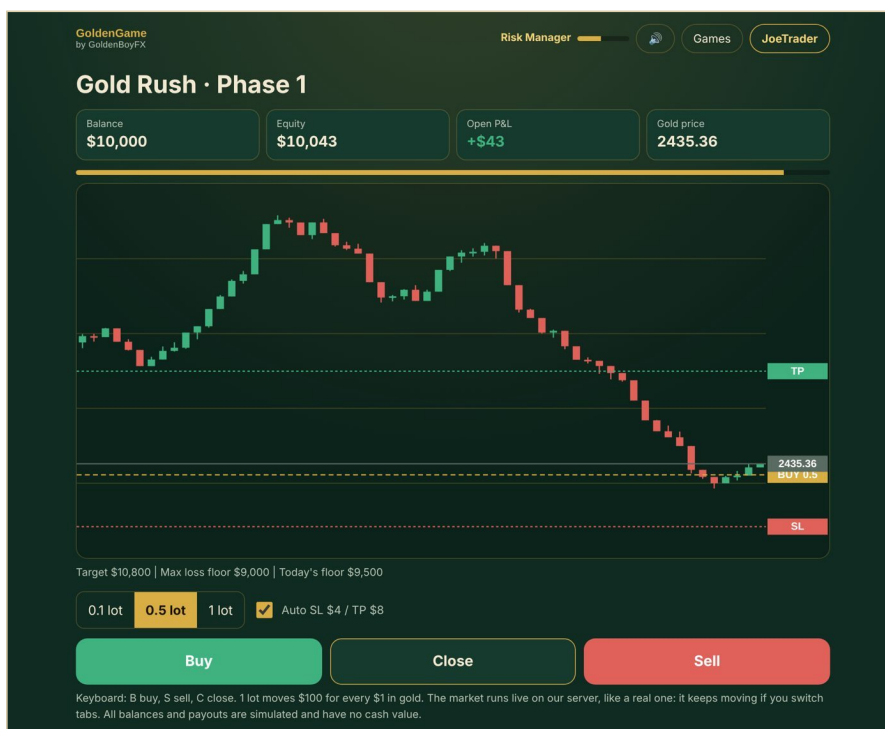

Game	Daily cap	Roughly
Gold Rush	1,000 XP	The biggest source of XP
Prop Challenge	450 XP	Three passes a day
Candle Call	400 XP	Two perfect games a day
Golden Quiz	300 XP	Two perfect games a day
Name That Trader	300 XP	Two perfect games a day
All games	2,450 XP	The most you can earn from games in one day

Pace check: even at the full 2,450 XP every day, reaching Golden Boy (100,000 XP) takes about **41 days**. Most players take several months. When a game hits its daily cap, the end screen tells you and suggests another game.

3 · MAIN GAME

Gold Rush

Trade a live, simulated gold chart through a full prop-firm journey: pass Phase 1, pass Phase 2, then trade a funded account for a payout. The market runs on our server in real time, so it keeps moving even if you switch tabs.

Gold Rush, Phase 1: a 0.5-lot buy with the automatic stop loss (SL) and take profit (TP) lines.

The three phases

Phase	Goal	Length	Market	Starting balance
Phase 1	Reach +8% (\$10,800)	180 candles (3 trading days, about 2 min 38 s)	Normal volatility, fewest news events	\$10,000
Phase 2	Reach +5% (\$10,500)	180 candles (3 trading days, about 2 min 38 s)	1.3× volatility, more news	\$10,000 (fresh account)
Funded	Keep 80% of the profit you hold at the end	240 candles (4 trading days, about 3 min 31 s)	1.6× volatility, the most news	\$10,000

- A phase starts when you tap **Start**. One candle lasts 0.88 seconds and a trading day is 60 candles.
- You **pass** a phase the moment your closed balance reaches the target. The next phase starts on a fresh \$10,000 account.
- If time runs out before you reach the target, the challenge ends with **Time's up**.
- In the funded phase, any open trade is closed at the end and you keep 80% of the profit above \$10,000. A loss or a broken rule pays nothing.

The two rules (as in real prop firms)

Rule	Breaks when	Example on \$10,000
Max loss	Equity (balance + open profit or loss) falls to 90% of the phase's starting balance	Equity hits \$9,000
Daily loss	Equity falls to 95% of the balance at the start of the current trading day	Day starts at \$10,200: breaks at \$9,690

Breaking either rule ends the account at once (**Account breached**), with no payout. Open losses count, so watch your equity, not just your balance.

Trading mechanics

Item	How it works
Lot sizes	0.1, 0.5 or 1 lot. 1 lot moves \$100 for every \$1 move in gold (0.1 lot = \$10, 0.5 lot = \$50).
Spread	\$0.30. Buys open at the ask (price + \$0.30) and close at the bid; sells the other way round.
Auto stop loss and take profit	On by default: stop loss \$4 and take profit \$8 from the entry (1 : 2). With 1 lot that is -\$400 or +\$800. You can switch it off.
One position at a time	Buy, Sell or Close. A buy while short (or a sell while long) closes the open trade first, then opens the new one.
Fills	Orders fill at the live price at the moment they reach our server, like a real market. Keyboard: B buy, S sell, C close.
News events	A banner warns you 5 candles before a release (NFP, CPI, FOMC, Powell speaks, PPI, Jobless claims). On release, prices spike for 3 candles in a random direction.

XP and score

Result	XP
Failed Phase 1 (time up or breached)	20
Passed Phase 1, then failed	100
Passed Phase 2, then failed or no profit in the funded phase	250
Funded payout	250 + payout ÷ 20 (for example a \$2,000 payout = 350 XP)

- Your leaderboard score is your payout in simulated dollars. The top payout each month is crowned **Golden Boy of the Month**.
- Play each phase to the end. Leaving mid-phase ends the game with no XP.
- One Gold Rush at a time: starting a new one closes the old one without XP.
- Your best Gold Rush payout also unlocks the three top prizes (\$1,500, \$3,000 and \$5,000 payouts, section 8).

Tip: the same rules that pass real challenges pass Gold Rush. Use small lots early, keep the auto stop loss on, and stay flat when the news banner appears.

4 · QUICK GAMES

Candle Call

Ten rounds of chart reading. You see 40 candles and call whether price will be higher or lower 6 candles later. Streaks multiply your points.

Candle Call after a correct call: the 6 hidden candles are revealed in the shaded zone.

How a round works

- You see 40 candles. Tap **Buy** if you think price will be higher 6 candles later, or **Sell** if lower.
- Your call is right if the close 6 candles later is above (Buy) or below (Sell) the last close you could see. Then the hidden candles are revealed.

Points, streaks and XP

Correct calls in a row	1st	2nd	3rd	4th	5th and after
Points for that call	10	20	30	40	50

- A wrong call scores 0 and resets your streak. A perfect game (10 in a row) scores **400 points**.
- $XP = \text{points} \div 2$, so a perfect game earns 200 XP. Daily cap 400 XP.
- Leaderboard score: your best points in one game.

Prop Challenge

A quick risk-management game: one trade a day for 30 trading days. Pick how much to risk, then take the trade or skip the day.

Item	Value
Start / target / floor	\$10,000 / \$10,800 (+8%) / \$9,000
Risk per trade	0.5%, 1%, 2%, 3% or 6% of your current balance
Each setup	Wins about 40% of the time and pays 2 times the risk (1 : 2). A loss costs the risk.
Daily loss rule	Losing more than \$500 (5% of the start) on one day fails the challenge.
Days	30, one decision a day. Skipping a day uses it up.

Result	XP	Leaderboard
Pass (reach \$10,800)	150	Day passed: fewer days is better
Reach day 30 within the rules, after 10 or more trades	40	No score
Break a rule (below \$9,000 or the daily loss rule)	0	No score

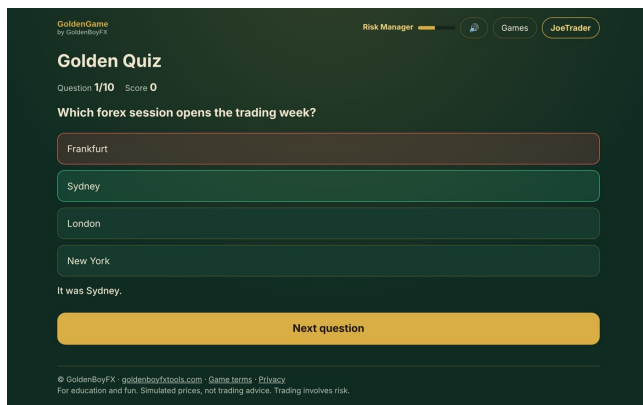

Daily cap 450 XP. Each trade's outcome is decided only after you choose, so there is no pattern to learn: only good risk choices.

5 • KNOWLEDGE GAMES

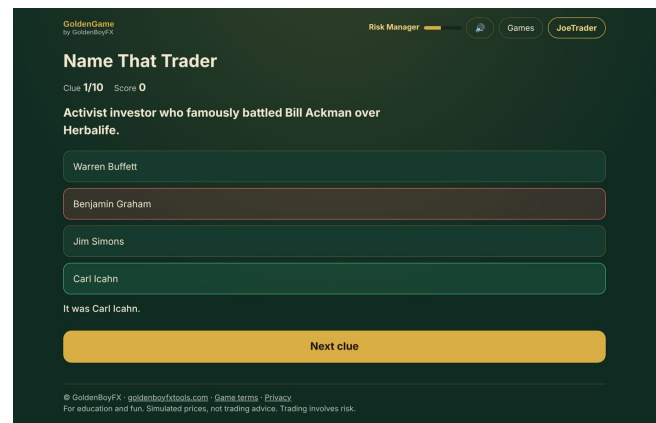

Golden Quiz and Name That Trader

Two ten-question games with four options each. Pick an answer and you see straight away whether you were right.

	Golden Quiz	Name That Trader
Questions	10, drawn at random from a bank of 118 on forex, gold, indicators, risk and prop-firm rules, built from the three GoldenBoyFX eBooks	10 clues, drawn from 50 market legends, each with 2 or 3 different clues
Options	4, in a new order every game	4 names: the right one + 3 other legends
XP	15 per correct answer (max 150)	15 per correct answer (max 150)
Daily cap	300 XP	300 XP
Leaderboard	Best score out of 10	Best score out of 10
Study tip	The Trader's Playbook and The Indicator Handbook	Market Legends

Golden Quiz: the right answer turns green.

Name That Trader: a wrong pick turns red.

Read each question before you answer. Games answered faster than a person can read don't count for XP or the leaderboard.

6 • EXTRA XP

Bonus XP

Two ways to earn XP outside the games. Bonus XP does not count toward the daily game caps.

Bonus	XP	How to get it	Limits
Telegram channel	300	Tap Connect Telegram , start the GoldenGame bot, join @GoldenBoyFXTools, then tap "I've joined: check me".	Once per player; one Telegram account per player
Code words	Shown with each code	We hide code words in our posts, videos and emails (for example in the free guide's welcome email). Type them in Rewards > Code word .	Once per code; each code has an end date; 5 wrong guesses a day

Follow GoldenBoyFX on social media and open our emails so you don't miss a code.

7 • INVITE FRIENDS

Golden Circle

You have a personal invite link. You earn XP when your friends **play**, not just when they sign up.

When	You get	Your friend gets
Friend reaches 500 XP (becomes an "active friend")	+250 XP	+100 XP welcome gift
Friend reaches 5,000 XP	+500 XP	–
3 active friends: Recruiter tier	+500 XP bonus	–
10 active friends: Mentor tier	+1,500 XP bonus	–
25 active friends: Golden Circle tier	+5,000 XP bonus	–

How it works

- Find your link in **Rewards > Golden Circle**. Share it with one tap to WhatsApp, Telegram, Facebook, X or your phone's share menu.

- When a friend opens your link, the sign-up screen shows that you invited them, along with their welcome gift.
- Your Golden Circle card shows who you invited, how many are active, your referral XP, your tier and each friend's progress.
- The **Top recruiters** leaderboard ranks players by active friends, this month and all time.

Referral rules

- **Real friends only.** A friend who plays from the same internet connection as you (the same Wi-Fi, for example) doesn't count, and neither of you gets referral XP for them.
- **Monthly limit:** you can earn up to 7,500 XP a month from friend milestones. Friends past the limit still count toward your tier.
- Each milestone and tier pays once. Making extra accounts to invite yourself breaks the one-account rule and can get every account banned.

Example. Maria opens your link and signs up: nothing is paid yet. Maria plays to 500 XP: you get +250 and Maria +100. Two more friends reach 500 XP: you reach Recruiter and get +500. Maria later reaches 5,000 XP: you get +500.

Invite friends · Golden Circle

Share your link. You earn XP when friends you invite play, not just when they sign up, and they get a welcome gift too.

Friend reaches **500 XP** → you get **+250 XP** and they get +100 XP

Friend reaches **5,000 XP** → you get **+500 XP**

Recruiter: 3 active friends → +500 XP bonus

Mentor: 10 active friends → +1,500 XP bonus

Golden Circle: 25 active friends → +5,000 XP bonus

<http://localhost:8788/?ref=MFSLMRCY> Copy

WhatsApp Telegram Facebook X

Invited **6** Active friends **4** XP earned **2,000** Tier **Recruiter**

6 more active friends to Mentor (+1,500 XP).

Maria_FX · all milestones reached	Active ✓
KenPips · 680 / 5,000 XP to the next milestone	Active ✓
RyanScalps · 670 / 5,000 XP to the next milestone	Active ✓
LiaGold · 660 / 5,000 XP to the next milestone	Active ✓
Joe_alt · same network, doesn't count	—
BenNewbie · 220 / 500 XP to the next milestone	Invited

Rewards are paid for active friends only. Accounts created from the same network as yours don't count, and you can earn up to 7,500 XP a month from friend milestones. One account per person.

The Golden Circle card in Rewards: steps, share buttons, stats and each friend's progress.

8 • PRIZES

Prize ladder and how to claim

Eight prizes, one per rank. A prize unlocks when you have the XP (and, for the top three, the Gold Rush payout). Each prize can be claimed once per account and once per email address.

You need	Prize	How you get it
1,000 XP	10% off any eBook	Discount code, shown instantly
5,000 XP	25% off any eBook	Discount code, shown instantly
10,000 XP	One eBook of your choice, free	100% discount code, shown instantly
20,000 XP	Wallpaper pack (phone and desktop)	Download link, shown instantly
30,000 XP	Sticker pack	Download link, shown instantly
40,000 XP + \$1,500 payout	All GoldenBoyFX eBooks, free	Sent by email after a quick check
75,000 XP + \$3,000 payout	Guardian Pro prize edition	Sent by email after a check
100,000 XP + \$5,000 payout	PropFirm Solo prize edition	Sent by email after a check

How to claim

- Open **Rewards** and tap **Claim reward** next to an unlocked prize. Enter the email where you want it sent.
- **Discount codes** are single-use codes for the GoldenBoyFX store. Your code appears in Rewards (and in your email). Enter it at checkout. The 100% code works on any single eBook, not on bundles.
- If a code isn't ready yet, you'll see "Your code is on its way". It will appear in Rewards automatically and we'll email you.
- **Downloads** are only for you. Please don't share the link.
- **Top three prizes** are checked by a person first: we look at your XP history and games. You'll see "Claim received" and then the result.
- For the two trading-software prizes, give your **full name exactly as on your MT5 account** and your MT5 account number(s). Your prize edition is licensed to those accounts.

Good to know: claiming a prize never lowers your XP or rank. One claim per prize per account and per email address. Prizes are GoldenBoyFX eBooks, downloads and software prize editions, never cash.

9 · RANKINGS

Leaderboards

Seven boards, each for this month (Philippine time) or all time, showing the top 25.

Board	Ranks players by
Total XP	This month: XP earned this calendar month. All time: total XP.
Top recruiters	Active friends (friends who reached 500 XP) in the period
Gold Rush	Best funded payout (\$). Monthly winner = Golden Boy of the Month
Candle Call	Best points in one game
Prop Challenge	Fewest days to pass
Golden Quiz / Name That Trader	Best score out of 10

10 · FAIR PLAY

Play fair

GoldenGame only works if every score is real. These rules keep it fair for everyone:

- **One account per person.** Extra accounts, shared accounts and accounts made to invite yourself are not allowed.
- **No bots, scripts or automation.** Play with your own hands and your own eyes.
- **No exploiting bugs.** If you find one, tell us at support@goldenboyfxtools.com.
- **Games that don't count:** quitting mid-game, or answering faster than a person could, earns no XP and no leaderboard place.
- **Cheating means a ban.** Banned players are removed from the leaderboards, can't sign in and can't claim prizes. We check every top prize before sending it.

Questions?

Ask in our Telegram channel [@GoldenBoyFXTools](https://t.me/GoldenBoyFXTools) or email support@goldenboyfxtools.com.

GoldenGame is for education and entertainment. All prices, balances and payouts are simulated and have no cash value. Rules and prizes can change; the game always shows the current ones. Full terms: goldenboyfxtools.com/terms.html#goldengame.
